PROJECTS

AMAZON PRODUCTS SALES ANALYSIS [\[GitHub\]](#):

- A Power BI dashboard providing a comprehensive view of Amazon product sales performance, including revenue trends, category breakdowns, and top-performing products.
- This dashboard tracks year-to-date (YTD) and quarter-to-date (QTD) sales metrics across Amazon product categories. It enables quick identification of top products, seasonal trends, and category-level performance.

PORTFOLIO:

- Designed and developed a fully responsive personal portfolio website from scratch using HTML5, CSS3, and JavaScript.
- Implemented a UI with animated typing effects, smooth hover transitions, and a sticky navigation bar.
- Showcased academic projects, 9+ professional certifications, resume download, and contact links in a single-page layout.
- Applied CSS custom properties, grid/flexbox layouts, and backdrop-filter effects for a modern, dark-themed interface.

SKILLS

Programming Languages: Python, HTML, CSS, SQL, JS
